Electric Rack Type Dishwasher with 2 Speeds & Pressure Boiler, ESD - 140 r/hr

534316 (RTCS140ERA)

Rack type dishwasher, electric, r>I, 2 speeds, pressure boiler, energy saving device, 140b/h

534317 (RTCS140ELA)

Rack type dishwasher, electric, l>r, 2 speeds, pressure boiler, energy saving device, 140b/h

Short Form Specification

Item No.

304 AISI stainless steel front and side panels, strainers and wash and rinse arms. Pressed wash tank (100 liters) for easier cleaning. Washing tubes in stainless steel. Double-skinned construction and counter balanced door. Built-in pressure boiler. Self draining wash pump. Automatic start/stop function. Energy saving device. Wash and single rinse in one compact module. 2 speeds variable on installation. Electric heating. HACCP autodiagnostic check control. Feeding direction: right to left.

Hourly capacity: 1st speed 2520 dishes/140 baskets; 2nd speed: 1620 dishes/90 baskets.

Main Features

- Push button self cleaning cycle of the wash and rinse zones for ease of "end of day" cleaning.
- Energy Saving Device (ESD). The ESD is an internal condenser which utilizes the steam generated by the machine in the rinse and wash tanks to heat up incoming cold water. The incoming cold water is heated up to 50 °C and a built in boiler will heat this water up to 80 °C (min) for the final sanitizing rinse.
- Washing cycle is carried out with water circulating at a temperature of 55-65 $^{\circ}$ C, whereas the rinsing cycle is carried out with clean water coming from the water system, heated to a max. temperature of 80-90 °C.
- Pressure boiler.
- Speed of conveyor can be set through the control panel by the operator. 90 racks/hr or 140 racks/hr.
- Large counter balanced inspection doors allow unrestricted all round access to the wash and rinse area. Door is insulated with injected foam. This adds strength as well as reduces noise and heat loss.
- Large filters sloping towards the front to the smaller pressed filter box for quick removal. Filters feature holes smaller than the concave ant-block wash nozzles so large food cannot enter and block the wash system.
- Adjustable feet for full access underneath the machine for cleaning.
- Wash chamber without internal pipes and therefore no hidden dirt traps.
- Self draining wash pumps provide maximum hygiene with no smells and all wash and rinse zones drain automatically at the push of a button.
- Powerful 2 hp (1.5 kW) wash pump.
- Deep drawn pressed wash tank with fully rounded corners, sloped towards the drain to prevent dirt build up provides fast drainage in only a few minutes. Pressed wash tank with no welded points offer a guaranteed water tight solution.
- Dishwasher structure is held together with a solid 2" × 2" (50 x 50mm) Stainless steel tube sub-frame to provide long term sturdiness.
- All main components made in heavy duty anti-corrosive 304 type Stainless steel: tanks, front and side panels, wash & rinse arms and caps, doors, front, handle and rack transportation system.
- Wash and rinse arms can be easily removed for cleaning.
- IPX5 water protection.
- Autostart/stop ensures that the machine runs only when a rack is passing through it. This reduces both water and energy consumption.
- Electronic control panel features large display to read wash and rinse temperatures.
- Low water consumption. At 140 racks per hour, the machine uses only 240 liters/hr.
- Machine predisposed for external detergent and rinse aid connections.
- Built-in rinse water heater to increase the temperature of the final rinse water.

Optional Accessories

 Drain kit for modular and compact rack type dishwashers 	PNC	864150	
Kit of 12 stainless steel plugs for washing arms for modular and compact rack type	PNC	864239	
 Air gap for compact rack type 	PNC	864309	
 Electric hot air blower, 600mm, for compact rack type, right>left (only for 534316) 	PNC	864506	
 Electric hot air blower, 600mm, for compact rack type, left>right (only for 534317) 	PNC	864507	
• Electric drying tunnel, 900mm, with door, for compact rack type, right>left (only for 534316)	PNC	864516	
• Electric drying tunnel, 900mm, with door, for compact rack type, left>right (only for 534317)	PNC	864517	
• Electric drying tunnel, 600mm, with door, for compact rack type, right>left (only for 534316)	PNC	864518	
• Electric drying tunnel, 600mm, with door, for compact rack type, left>right (only for 534317)	PNC	864519	
• Electric corner drying tunnel, for compact rack type, right>left (only for 534316)	PNC	864520	
• Electric corner drying tunnel, for compact rack type, left>right (only for 534317)	PNC	864521	
Basket for 5 half insulated trays 530x370 mm - red	PNC	867005	
Kit 6 baskets for 1-tank Rack Type dishwashers	PNC	867050	
Kit 9 baskets for 1-tank Rack Type dishwashers	PNC	867051
