Eco Store Premium Refrigerator - 670 lt 1 Glass Door (+2/+10°C) - 230 V/1N/50Hz

Short Form Specification

Item No.

Full glass door refrigerator entirely constructed in 304 AISI stainless steel with bottom panel in anti-corrosive material. Large digital display featuring cabinet temperature display and setting, manual activation of defrost cycle and turbo frost cycle (to rapidly cool warm loads). HACCP-compliant control with alarms and history. Frost Watch Control to defrost only when required with automatic evaporation of defrost water. Three probes to constantly monitor the working conditions of the appliance. Optiflow: back to front forced air flow and removable air conveyors provides even temperature distribution and fast cooling in any conditions. Fitted with 75 mm-thick cyclopentane insulating foam. Door features lock and door microswitch to switch off the fan when the door is opened. Hidden evaporator to guarantee higher storage capacity and less corrosion problems. Built-in refrigeration unit, ventilated operation, Internal LED light and internal back light. For ambient temperatures up to 32 °C. CFC and HCFC free. R134a gas in refrigeration circuit.

Supplied with n. 4x2/IGN Rilsan coated grids and n. 4 sets of 2 stainless steel grid runners. Prearranged to fit RS485 port to facilitate connection to a remote computer and integrated HACCP systems.

Approval:

Main Features
- Right hinged glass door with heated frame.
- Large digital white-digit display with cabinet temperature display and setting, manual activation of defrost cycle, turbo frost cycle (to rapidly cool warm loads) and internal light switch.
- Fully compliant HACCP digital control: when temperature exceeds critical limits, acoustic and visual alarms are activated. Up to two months of event are kept in memory.
- Large storage area suitable to contain 2/1 GN grids or shelves on anti-tilt runners.
- Optiflow: back to front forced air flow and removable air conveyors provide even temperature distribution and fast cooling in any conditions.
- Frost Watch Control: fully automatic defrost starts only when ice is actually building-up in the evaporator and adapt the defrosting duration to guarantee perfect ice removal while optimizing energy efficiency consumption.
- Improved defrost and evaporator fan management – defrost type changes with temperature set-point: electric below +2°C while air convection defrost above +2°C, thus saving energy.
- Internal structure with numerous charging positions available to host grids, ensuring higher net capacity and a greater storage space.
- The operating temperature can be adjusted from +2 to +10°C to suit both meat and dairy storage requirements.
- Performance guaranteed at ambient temperatures of -32°C.
- Cabinet fitted with up to 75 mm thickness of cyclopentane insulation for best insulating performance with 100% environmental protection (thermal conductivity: 0.020 W/m°K).
- Removable triple-chamber balloon magnetic gasket to improve insulation and reduce energy consumption and ease of cleaning.
- Cleaning-free condenser: the structure of the wire frame condenser prevents dust and grease accumulation thus avoiding periodical cleaning operations and reducing energy consumption.
- Automatic evaporation of the defrosting water by hot gas on the top for energy saving.
- 60 mm-thick insulation covering the evaporator can be easily removed with a single operation.
- Interior LED light to save energy and for best internal visibility.
- Prearranged to fit RS485 port to facilitate connection to a remote computer and integrated HACCP systems.
- Rilsan coated grids for improved protection.

Construction
- Constructed from the highest quality AISI 304 Stainless steel.
- Interior base with rounded corners, pressed from a single sheet.
- The rounded internal corners, the easily removable runners, grids and air conveyors allow for ease of cleaning and high hygiene standards.
- Anti-corrosion bottom avoids any damage that may be caused to the cabinet by aggressive detergents employed to clean the floors.
- Easy access to the main components for maintenance.
- Lockable door.
- Door switch stops the fan when door is opened to avoid cold air exiting the cell, thus saving energy.
- Refrigerant type: R134a.
- CFC and HCFC-free insulation.
- Stainless steel runners and supports easily disassembled.

Included Accessories
- 4 of 2/1GN grey rilsan grid with 2 runners PNC 881020

Optional Accessories
- Grids support with 50 positions for ecostore PNC 880237
- Touch and ecostore Premium cabinets PNC 880242
- 2 stainless steel runners for refrigerated cabinets - (Marine) PNC 880243
- Set of 8 GN1/1 PVC containers for fish PNC 880244
- Spacer for 670 lt and 1430 lt refrigerated cabinets PNC 880245
- Pedal opening for cabinets PNC 880246
- 1/1GN plastic container with false bottom PNC 880247
- Kit of 10 pairs of runners and 4 tray supports PNC 881002
- Meat rack for 670/1430lt refrigerators with 4 hooks PNC 881019
- Set of 2 stainless steel runners for 670/1430lt PNC 881021 refrigerators and freezers
- Kit of 4 small swivelling wheels, 2 with brake, diam 50 mm, nöt for remote models PNC 881035
- 2/1GN pvc container with lid and 2 runners PNC 881037
- 2/1GN perforated shelf PNC 881042
- 1/1GN rilsan steel wire basket h=150mm PNC 881043
- 2/1GN grey rilsan basket+2 runners h=150mm PNC 881047
- Glass door protection kit for ecostore PNC 881163

ecostore Premium
1 Glass Door Digital Refrigerator, 670lt (+2/+10)

Electric
Supply voltage: 727249 (ESP71GR) 220-230 V/1 ph/50 Hz
Electrical power max.: 0.27 kW

Key Information:
Gross capacity: 670 lt
Net Volume: 503 lt
Door hinges:
External dimensions, Width: 710 mm
External dimensions, Height: 2050 mm
External dimensions, Depth: 835 mm
External dimensions, Depth with Doors Open: 1480 mm
Number and type of doors: 1 Glass
Number and type of grids (included): 4 - GN 2/1
Type of external material: 304 AISI
Type of internal material: 304 AISI
Internal panels material: 304 AISI
Number of positions & pitch: 44; 30 mm

Refrigeration Data
Control type: Digital
Compressor power: 1/4 hp
Refrigerant type: R134a
Refrigeration power: 358 W
Refrigeration power at evaporation temperature: -10 °C
Operating temperature min.: 2 °C
Operating temperature max.: 10 °C
Operating mode: Ventilated

Product Information (EU Regulation 2015/1094)
Energy Class: E
Yearly and daily energy consumption: 1208kWh/year - 3.31kWkWh/24h
Climate class: Normal duty (cl.4)
Energy Efficiency Index (EEI): 84,16
Type of model: vertical chilled

EU energy labelling from 1st July 2016

The European energy labelling scheme for professional refrigerators and freezers is based on requirements setting Minimum Energy Performance standards for commercial refrigeration cabinets sold within the EU. These requirements are designed to drive energy efficiency and environmentally friendly approach for professionals. The European energy labelling scheme will apply to all manufacturers and importers who sell and market products within the EU and it is mandatory across Europe.

Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.
